## Department of International Development

### Assistant Professor in Health and International Development

**Salary is no less than £54,984 per annum (pay award pending) and the salary scale can be found on the [LSE website](#)**

The Department of International Development promotes interdisciplinary postgraduate teaching and research on processes of political, economic, and social development and change. We are dedicated to understanding problems of poverty and late development within local communities, as well as national and international political and economic systems. The appointed candidate will contribute to the intellectual life of the School through conducting and publishing outstanding quality research, engaging in high quality teaching as instructed by the Head of Department, and participating in the School and wider Department activities.

Candidates must have a completed PhD, or be close to obtaining a PhD by the post start date in September 2019, related to health and development, from a social science discipline such as Politics, Development Studies, International Relations, Sociology, Anthropology, Geography, or related subjects.

Candidates will have expertise and a proven record of outstanding research interests in an area of health and international development. Research experience should be in a developing country or countries that is embedded in broader issues of international development, such as, climate change and health, conflict and health, foreign investment or trade and health, migration and health, the politics of global health, and other related areas.

Candidates will have a strong track record or trajectory of internationally excellent publications, with demonstrated potential to publish in top journals or with leading book publishers. Candidates will also have a well-developed and viable strategy for future outstanding research that has the potential to result in internationally recognized publications. Candidates will be able to teach MSc and PhD-level courses on health and international development.

The other criteria that will be used when shortlisting for this post can be found on the person specification, which is attached to this vacancy on the LSE's online recruitment system.

In addition to a competitive salary, this job offers an occupational pension scheme, a research incentive scheme with personal reward options, generous research leave (sabbatical) entitlement, a collegial faculty environment, and excellent support, training and development opportunities.

For further information about the post, please see the how to apply document, job description and the person specification.

**To apply for this post, please go to [www.lse.ac.uk/LSEJobs](http://www.lse.ac.uk/LSEJobs).** If you have any technical queries with applying on the online system, please use the "contact us" links at the bottom of the LSE Jobs page.
